

THE UNIVERSITY OF
SYDNEY

1st of June 2026

Dear Yang,

Congratulations on finishing your DATA3888 project and well done on your fantastic presentation last week!

As one of the top performing groups, we would like to invite you to the Accenture Office Visit taking place at:

- **Location:** Accenture Sydney Office, International House, 3 Sussex St, Barangaroo NSW 2000
- **Date:** Monday 22 June 2026
- **Time:** 9:50am – 12pm

The schedule for the day will be:

- Welcome and introduction
- Office tour
- Consulting career overview
- Student presentations
- Networking and Q&A
- Closing remarks

In particular, each group will have the opportunity to deliver their presentation to the Accenture team. Please note that you will have to slightly adapt the presentation to a new audience: a general audience, rather than data science or scientific audience. If you are happy to do this, I will give further guidance on this aspect.

As a group, could you please accept or decline the invitation. And if you accept, could each student please confirm if you will be attending on the day. Let me know by reply email by Thursday 4th June. If I do not hear back, I will offer the spot to another group/students). I understand that not all of you may be able to attend, but hopefully enough of you will be there to deliver the presentation and answer questions.

Congratulations on the invitation, this is a huge achievement. Please don't hesitate to let me know if you have any questions.

Yours Sincerely,

Andy Tran
Lecturer
Room 707A, Carlaw Building (F07),
School of Mathematics and Statistics,
University of Sydney,
NSW 2006, Australia
